How to attract birds subject of new brochure

It's spring birds on the wing and time to consider how more robins, bluebirds and cardinals can be attracted.

For midwestern homeowners, a new brochure, entitled "Invite Birds to Your Home — Conservation plantings for the Midwest" has been prepared by the U.S. Soil Conservation Service.

The brochure describes and illustrates a number of trees, shrubs and other plants that attract different birds. It suggests how to create a landscape design, mentions the needs of various plants for sun, soil and water, and lists the plant foods preferred by common midwestern birds.

Single copies of the brochure are available from the Office of Information, U.S. Department of Agriculture. The Davis County Soil Conservation office in Bloomfield also has a limited supply of booklets.
