Vol. I, No. 4 | Area Ten Community College, Cedar Rapids, Iowa | Friday, January 26, 196

Student Government Plans Many Activities For ATCC

by Dennis Nebendahl
News Editor

In the short month and a half of its existence, the student government of Area Ten Community College has accomplished much.

The student government's first major action was sponsoring a student dance of Area Ten. The dance, held at the Arrowhead Archery Lanes to the sounds of the "Legends" on December 8, was open to any college students. Turn out was less than expected, but the [illegible]

a jukebox or a stereo is being put off until the committee decides what type of records will be used. Another of their plans is to obtain vending machines for the smaller buildings.

A Winter Formal is currently being planned by Mr. Davis' committee, but nothing is definite yet. The dance, as it exists in the preliminary stages, will be a semi-formal (suits and dresses) all night or country club affair and will be held at a large hotel with a local name band. If any student has any

On the Rocks . . .

The Seat Of Guilt

The other day, during a discussion of the assassination of Dr. Martin Luther King, Jr., two thought provoking comments were made. At one point in the discussion, someone said, "I refuse to accept responsibility for the actions of one lunatic in Memphis." This, at least initially, would seem a rational plea. But the rejoiner of another member of the class cast a different light on the matter. He said, "We are all responsible."

Are we not all, indeed, responsible for this tragedy? The answer is yes. We are guilty in that we allowed the development of a situation in which this irrational, brutal murder could be committed. Surely not one of us could truthfully say we were not aware of the possibil-

I. PROBLEM

The concern of Americans for [illegible]e fate of their country grows [illegible]th this nation's escalating de[illegible]lopment in hatred and vio[illegible]ice. The mushrooming Viet[illegible]m war spawns ghetto riots at [illegible]me and guerilla insurrections [illegible]road, while its shock waves [illegible]tensify the rhetoric of hatred

sons for sending Marines into the Dominican Republic.

The most recent example of the present administration's unwillingness to tell the basic truth about its foregn policy occurred after the October 16-21 anti-war protests, when Rusk and McNamara formally turned down invitations to publicly testify on Vietnam before the Senate Foreign Relations Committee.

(2) CHOICE

The U.S. government's unwill-

neither trusting its citizens with the basic truth about its foreign policy nor offering them valid foreign policy options in national elections, it is not surprising that the rights and responsibilities of American citizenship are unequally distributed among our people.

The fact of government lying about Vietnam is logically consistent with its reliance upon "impressionable" 19-, 20- and 21-year-old young men to bear the heaviest burden of our policy in Vietnam, in spite of the fact that

sonalized than a ballo[illegible] voter's name and [illegible] Draft cards should be [illegible]m. for our new electoral [illegible]uire

Electoral systems a[illegible]it of voting booths for the [illegible]ffice ballots. Federal marsh[illegible]l be and induction centers [illegible]new the voting booths of electoral politics.

An electoral proces[illegible]ures the deposit of a ballot [illegible]ting booth. The new pr[illegible]ring work the same way [illegible]raft the deposit of a citi[illegible]ce

Of Area Colleges Hold State Meeting

A conference to organize a state-wide student representative organization for area community colleges will be held Saturday, April 20, at the Colonial Terrace in Des Moines.

The organization is to give the students a larger voice in community college affairs on the state level. The original letters calling for such a meeting were sent out by Dave Thomas, Chairman of the Community College Relations Committee.

The six students representing Area Ten at this meeting will be Dave Thomas; Jerry Burke, President of Student Congress; Marcia Stack, Secretary of Student Congress; Richard Moore

Yet we did little or nothing to forstall it. Some say this was the inevitable conclusion of Dr. King's career, but this is just not so. The fault lies in every one of us who, through apathy or just plain bigotry, did nothing to negate the legacy of hatred handed down to us from the past.

We have had our warning. We stand on the brink of a national disaster, the consequences of which are too horrible to imagine. Have we not had our fill of hatred and bloodshed? Can we not apply the grim lesson we have learned? Is "love thy brother" all that difficult a maximum to understand and carry out?

I sincerely hope not.

—Thomas

War, Racial Discrimination, Sexual Usury Are Immoral

A college is a place of idealism, a place where a person can say what he really believes without fear of bigoted criticism. To exercise my freedom of expression, I've decided to protest.

My protest will be the ordinary kind; I plan to do nothing very different from what hundreds of other protestors around the nation have done. First, I'll have to be identifiable, so I'll wear a brown beret. Secondly, I'll have to define what I'm protesting, so I'll take this opportunity to say I protest WAR, RACIAL DISCRIMINATION, and SEXUAL USURY.

The reasons for my choice of dress should be obvious and I hope the choice of my protest objects is equally obvious, but I doubt it. I chose war, racial discrimination, and sexual usury because all are immoral and all are encouraged rather than discouraged by most Americans.

Most parents teach their children that all wars that America has been in have been "necessary" and are something to be proud of. Most parents teach their children that racial discrimination is natural and that white Americans are just naturally superior in all ways to other races—especially the Negro, i.e. Niggers. Lastly, most parents, indirectly, teach their sons how to exploit women and their daughters how to exploit men. Where parents fail to teach sexual usury, peer groups and advertisers take the job.

I don't know how long my protest will last, but I hope it will last at least until the end of this school year. All I hope to accomplish is some sort of intelligent discussion on WAR, RACIAL DISCRIMINATION, and SEXUAL USURY.

Maybe by unteaching future parents a little, these future parents might not teach their children that only "Traitors" sabotage American war efforts, that only "Niggers and Nigger Lovers" are against racial discrimination, and that only "Queers" and "Scared Virgins" fear sexual usury.

Ballantyne — 'Newspaper Essential'

Dear Mr. Franks:

I would like to take this opportunity to commend you for your initiative in producing the student community college newspaper.

I am sure that I speak for the entire staff of Area Ten in saying that the student newspaper is an essential and extremely important instrument for student communication. Certainly the staff will profit also by your publication as a sounding board for student interests and concerns, and as a reflection of student spirit, will, hope and aspirations, the newspaper staff has a significant responsibility.

Your first issue is historical. As pioneers in the establishment

work that is laid now will influence our course and direction for years to come. There is little question that the generations of students and staff that will follow will wish to study and analyze the work that we are engaged in now. Your newspaper, therefore, will play a significant role in relating the thinking and challenge to not only the present students, but also to the thousands who will follow.

May I say on behalf of the staff that we look forward to reading your publication and to assisting you in any way that we can.

Again, I commend you for your effort and wish you every success in this important and challenging endeavor.

Meeting The Challenge Of Change

The experience of learning means many things to people living in a rapidly advancing and complex society. It has been said, "Learning is wealth to the poor, an honor to the rich, an aid to the young, and a support and comfort to the aged."

Learning has always been a great equalizer in a dynamic, competitive and ever changing society. Adults in increasing numbers have returned to the classroom to keep pace educationally. Americans participating in Adult Education Programs now number in the millions with a one-third increase in enrollment in the past six years.

To some, Adult Education means an awakening, a revival of interests and enthusiasm bringing a new meaning and sense of fulfillment into life. Adult Education may be the means of upgrading or improving skills in the interest of obtaining a better job. It may mean simply cultural enrichment, or for senior citizens, an opportunity to develop new hobbies and to make new friends. For the person who has left high school prior to graduation, Adult Education offers classes for high school completion and the potential for advancement and greater earning power in the world of work. Still to others beset with economic, social or physical handicaps, Adult Education may mean the vehicle to a life of self dependence and determination.

The diversity of Adult Education meets the needs of many people. Moreover, through all the various divisions, Area Ten Community College is dedicated to assisting individuals and communities to meet their objectives. An enlightened citizenry must be the foundation on which our area will continue its growth and, subsequently, meet the challenge of change.
