Russell Pump—John Aymer

Ribbon Cutting Ceremony

Thank you all for joining us on our great day. This is a culmination of 6 years of dreams and hard work... and hard work... and hard work. We want to thank many people- trustees, both past and present, city and county governments, the state library and Central Iowa Library regional service area staff. Thanks to Garry Brandenburg for being the site coordinator and for keeping a photo journal of the construction process.

Many thanks go to the architectural firm of TSP Six (Sean Erwin, David Schultz and Justin Sorenson) who chose well in designing plans with many windows, bricks and use of wood.

The excellent firm of Huff Contracting, Inc. (Chad Kelly and Crew) put those plans into building this incredible library before you – CAN YOU tell I am excited?

The Vision Iowa/Cat grant allowed us to move forward with the cities assistance of local option sales tax and Heart of Iowa Communications Cooperative loan. The Roy J. Carver Charitable Trust deserves special thanks as well as Larry Raymon of Raymon Donco Air Products located right here in Albion.

We owe thanks to so many more of you, but I don't want to keep you standing here in the heat. You have no idea how much this entire project means to me personally and professionally as well as the community.

We are no longer a library of the past only, but now a vibrant part of the community offering a place to learn, to meet and to enjoy the TOWN OF ALBION.

Allow me to introduce Andy Anderson, Board Chairman Vision Iowa/Cat Program...
