

Ministers Soil Conservation Tour Postponed

The ministers tour scheduled in connection with Soil Conservation week has been postponed to June 30, at 1:30 p.m. according to Cal Moore of the Soil Conservation Service.

The tour originally scheduled for June 16 conflicted with several church camps, schools and annual conferences, he said.

The tour will be conducted on the Bernnard Reece farm, New Providence and the Harold Marsh farm, Union. Farm plans have been developed on each of the farms including many of the conservation practices applied in the county.
