

A Failure

A failure can be the cause
of more caution and better
efficiency. Lee Neal, W.D.C.
Guthrie Center, Iowa

LACK OF COMPACTION AROUND THE TUBE AND FROST IN THE EARTHEN FILL CAN BE A DISASTER.

A VOID WHICH PARALLELED THE TUBE, THUS CAUSING THE BLOWOUT.

AN EARTH SLIDE OF THE POND FILL-ONCE THE LOWER PART OF THE FILL HAD WASHED OUT.

MORE DAMAGE AHEAD FOR THE POND , UNLESS THE SITUATION IS REMEDIED. THIS EARTHEN
FILL WAS REPAIRED BEFORE ADDITIONAL DAMAGE WAS DONE.
