

Section 2

Wilkening and Arnold

Roster and Index

The Roster in this section contains the names, addresses, phone numbers and email addresses of a family primary contact person. Each record also includes a Richard Harrison unique genealogy record number on the right side that is constant through years of reporting.

There are two indexes in this section, one sorted by the genealogy record number and the other sorted by Last Name. The other information included for each index is the First and Middle Names, Birth Date and Married Name. These indexes can serve as a quick relative member reference.
