RESOLUTION

WHEREAS, the Lee County Planning Commission has been formed for the purpose of comprehensive planning and development of the resources within the county in a unified efficient and effective manner, and

WHEREAS, for more than twenty five years, the soil conservation district of Lee county has been working with individuals, groups and units of government in the county, providing assistance in the development of resource inventories and plans, along with the application of soil and water conservation measures, and

WHEREAS, the soil conservation district through memoranda of understanding with the United States Department of Agriculture and State Agencies, is able to provide resource planning expertise in many areas of rural and urban resource use, and,

WHEREAS, the soil conservation district has a standard soil survey in progress, such surveys being well established as basic to proper resource planning, and

WHEREAS, a cooperative effort between the soil conservation district and the county planning commission will be mutually beneficial,

Now, THEREFORE, Lee County Planning Commission and the Lee County Soil Conservation District do hereby unite in the Memorandum of Understanding.
