

SOIL CONSERVATION DISTRICT

To Whom These Presents Shall Come: Greetings

Be it known that Donald Eibey, residing in
Coffins Grove Township, Delaware County, Iowa, has
been duly elected by the landowners of the Delaware Soil
Conservation District to serve for a term of 6 years, from September 29, 19 60.
Your election to this position of trust and responsibility is a recognition of your initiative and inter-
est in the conservation of soil and water, and your willingness to assist in planning and carrying out
a program that will make it possible for all farmers in the district to provide for the conservation of
their lands.

The State Soil Conservation Districts Law sets forth authority, duty and responsibility as a
member of the governing body of the Delaware Soil
Conservation District. Among these responsibilities you should be diligent in helping to guard our
land resources so that no man will go hungry because soil and water were wasted. Help everyone to
understand the real meaning of soil conservation, "the use of soil resources without waste" by im-
pressing upon them their responsibility of maintaining or improving the fertility and condition of
their soils.

In conformity to the action of the State Soil Conservation Committee in session, we hereto set
our hand, this the 8th day of December 8, 1960.

Fred Cherry
Chairman State Soil
Conservation Committee

William H. Greiner
Secretary State Soil
Conservation Committee
