CLARENCE, IOWA

Don A. Williams, Administrator of the Soil Conservation Service, Washington, D. C., looks on as Secretary of Agriculture, Orville A. Freeman, signs a revised and updated Memo of Understanding with the Cedar County Soil Conservation District.

—Cover—

Cattle grazing on lush pasture on the Alvin Davidson farm in Pioneer township. Although the tall grass hides it, there is a good stand of birdsfoot trefoil on the field.

DISTRICT HIGHLIGHTS — 1964

District commissioner election and free pancake dinner held in March. Lawrence Kleppe elected to succeed Harold Oldorf.

The commissioners sold advertising in the 1963 annual report. Over 2500 copies were mailed to landowners and operators in the county, and to others interested in conservation.

Material on Soil Stewardship Sunday was sent to ministers in the county to assist in observing "Soil Stewardship Sunday."

The district provided a series of 12 cartoons on conservation which were run by 3 local papers.

Soil & Water Conservation week was celebrated with special emphasis in the county newspapers.

Speaking Contest on "How Soil & Water Conservation Affects My Future" was sponsored by the district. Jerry Ahrens, Wilton Junction, placed first and Elaine Grunder, Wilton Junction, was second. Young people from the Bennett and Wilton Junction schools took part.

The commissioners, ex-commissioners and soil conservation service personnel took a ride down the Mississippi on the Kent Boat for their annual get-together in August.

Misses Diane Koth, Lowden and Antoinette Rix, Clarence, were selected as Queen of Conservation for Cedar County, and represented your district at the regional contest held at the All Iowa Fair, Cedar Rapids. Diane won the Regional Contest and with it a gold watch. She also competed in the State Queen of Conservation Contest which was held in conjunction with the State Plowing Contest and Conservation Field Day at Adel in September.

The District cooperated with the ASCS office in setting up a booth at the Cedar County Fair. Pictures of conservation practices, a tile collection, and samples of native grasses were used to make up the District's part of the booth.

Eleventh annual Soil Judging Contest was sponsored by the District with 150 boys from 5 high schools taking part.

Two teachers from the West Branch schools attended a 2-

FARM CREDIT COOPERATIVE

PRODUCTION CREDIT ASSN.

Loans for operating needs.

Three year loans for capital expense, such as purchase of dairy cows, stock cows or purchase of new machinery.

Three to Seven year loans for capital expense such as expenses incurred in converting to Grade 'A' dairy setup, etc.

Each loan and repayment on loan geared to the individual operation.

Loans to purchase feeder cattle or hogs.

Simple interest at reasonable rates.

Ask your neighbor about a PCA loan, it is likely he is a PCA borrower.

Edward Crock, Mechanicsville, looks over his contour strips after a heavy storm last summer. Ed was pleased with the way his strips cut down on erosion.

This farmer was not pleased with what he found. This field will no doubt be contoured next time it is planted to corn. At least 50 tons of soil per acre was lost from the surrounding hills.

TRADE WITH YOUR COOPERATIVE

EXTENSION SERVICE, EDUCATIONAL ARM OF U. S. D. A.

The Extension Service worked with key leaders of the county in getting the Soil Conservation District established and has worked very closely with the district program since that time in an effort to get more actual conservation on the land.

The Extension program is family centered. An effort is made to reach all members of the family through some phase of our educational program.

A few of the activities include: soil conservation, soil and crop management, soil testing, livestock production, dairy management, marketing, work with various livestock and breed organizations, public affairs programs, 4-H and youth programs, home economics adult program, and farm and home program.

Through 4-H and other youth programs, an effort has been made to develop more interest in conservation.

During the early '30's at a district Extension meeting at Albia, Iowa, we were discussing soil conservation and proper care of the land. The following question was asked of the farmers: If you had the necessary money to build the terraces, waterways, dams, etc., needed to really take care of your farm, would you do it? One farmer replied, "If I had that much money, I would go up north and buy a good farm."

In Cedar County most of our soil is productive enough to merit saving. When you and I think about soil conservation and what it can mean to us as well as future generations, it certainly gives us cause to pause for meditation.

The Federal Government, through the Soil Conservation Service, has given the farmers much help with their conservation problems. Every farmer should take advantage of this help before it is too late.

Are you leaving your farm in better shape than it was when you received it? If not, you should be thinking about what you can do to improve the same and save the soil.

Bulletins on all phases of our educational program are available in the Extension Office in the basement of the Tipton Post Office.

FARMERS HOME ADMINISTRATION

By Daryl L. Grove, County Supervisor

The Farmers Home Administration assists farm operators to become soundly established in the farming business.

A three man farmer committee certifies the eligibility of applicants for loans, determines the suitability of farms and advises the supervisor. The Cedar County Committee is Ralph Pelzer, Everett Ferguson and Harold Schnack.

OPERATING LOANS are written to purchase or refinance livestock, machinery, operating expenses and certain other needs, including fertilizer and other soil amendments. The Committee recommends a conservation plan for the best use of land resources, power, equipment and fertilizer. They feel families must make the best use of their resources to be successful in present agricultural situations.

FARM OWNERSHIP LOANS are written to purchase, enlarge, develop or refinance farms or other debts. The Committee feels a conservation plan is essential to the best use of financial and management aid offered through the program. Each family is urged to follow a land use program developed by the Soil Conservation District.

RURAL HOUSING LOANS are made to remodel or build homes and other essential farm buildings on farms or in communities under 2,500 population. Housing loans also available to senior citizens to build or purchase existing homes. Loans may be made to either individuals or to associations for the construction of rental housing units for senior citizens.

SOIL AND WATER LOANS are made to initiate and complete any soil and water conservation practice outlined in the Agricultural soil and water conservation practice handbook. The FHA committee must be sure that there is an adequate functioning soil conservation plan before the Soil and Water loan is certified.

A new loan authority provides for Economic Opportunity loans to farmers or residents of rural Communities. The loan may not exceed \$2,500 and must be used for an income producing enterprise which may be either agricultural or non-agricultural. The purpose of the loan is to provide a means for low income families to raise their standard of living.

Cedar County is serviced by the F. H. A. office located at 1201 North Ave. in Tipton.

CEDAR COUNTY A. S. C. S.

County Committee — W. E. Shrope, Chairman

Thomas E. Crees & LaVerne A. Wood

Office Manager — Donald M. Conrad

The Agricultural Conservation Program has taken on a new light in the last year. Through the president's anti-poverty program and economic opportunity act we find new uses for this program.

The Cropland Conversion program is one which is still in the experimental stage at this time. One example of this program is shown in conjunction with Koch's Lake on Mr. & Mrs. Marvin Koch's farm.

Also watershed areas are being established and worked out through the Agricultural Conservation Program.

Here in Cedar County, we are finding forestry practices, strip cropping and contouring practices on the up-swing.

We at the A. S. C. S. office want to encourage farmers in Cedar County to contact the Soil Conservation office or the Agricultural Stabilization and Conservation Service on any conservation problem for possible engineering service and cost-share assistance.
