How Famous Movie Stars Keep their Hair Beautiful

PROPER Shampooing is what makes beautiful hair. It brings out all the real life, lustre, natural wave and color, and makes it fresh and lustrous.
Your hair simply needs frequent and regular washing to keep it beautiful, but it cannot stand the harsh effect of ordinary soap. The alkali, in ordinary soaps, soon dries the scalp, makes the hair brittle and ruins it. This is why leading motion picture stars, theatrical people and discriminating women use

WATKINS MULSIFIED COCOANUT OIL FOR SHAMPOOING

This clear, pure, and entirely greaseless product, cannot possibly injure and does not dry the scalp or make the hair brittle, no matter how often you use it.

Two or three teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair shines quickly and evenly, and has the appearance of being much thicker and heavier than it is. It leaves the scalp soft and the hair fine and silky, bright, fresh-looking and fluffy, wavy and easy to manage.

You can get MULSIFIED COCOANUT OIL at any drug store, and no cent bottle should last for months.

If your druggist does not have it, an original bottle will be mailed direct upon receipt of the price.

Splendid for Children.
