Dear Miss Wilson. I'm very grateful for your taking the trouble to reply to my not very important letter notwithstanding the upset in your family, which I trust has happily resolved itself.

You were much too kind in your comments upon the things I sent to you. I hope you find the enclosed specimens of more interest. Of your plates sent to me - for which many thanks - I liked your own plate much the best. It portrays the home of your youth, I assume, rather than your present abode. Your having two specimens at hand seemed to argue that, though your collection is stored away, your supply of

your own personal plates are handy. If this is
so would you be kind enough to spare me
a dozen copies? If they are not handy I
beg you to do nothing more about it.

I trust you do not think me greedy
but I have great difficulty in obtaining
enough quantity of interesting plates to keep
up exchanges.

I have a number of penderawn plates
and a small number (less than 100) of
copper and wood-engravings by first-class &
good class artists. (U.S. artists I have are
Wm Fowler Hopson, Sidney Lawton Smith, Elisha
Brown Bird, Rockwell Kent, E. D. French).

With all good wishes

Sincerely yours
