Primus Wins State Award Outstanding Commissioner

BAMBOAT ROCK — Paul Primus of Bamboat Rock has been named outstanding Soil Conservation District Commissioner of Iowa.

Primus earlier had been named one of the outstanding regional commissioners.

Primus was the first land owner in Harpers District and Pine Lake Watershed to install grass backslope terraces on his farm. He built 9,700 feet of terraces last year and 10,000 feet this year. He plans to continue until his entire farm soil is stabilized. The award comes after long and extensive work in soil conservation and related farm endeavors.
