

**ANNUAL REPORT
MILLS COUNTY SOIL & WATER CONSERVATION DISTRICT
7-1-89 through 6-30-90**

FILE COPY

We, the Commissioners of the Mills County Soil & Water Conservation District, respectfully submit our Annual Report for your review. As commissioners, we are charged with the restoration and conservation of this county's natural resources. We will continue to help landusers in meeting the need to keep the soil permanently productive and the water clean.

The success of our program can be attributed to the generosity of many individuals and groups. A sincere "Thank You" to all of you -- The members of the Cooperators Club whose monetary help has kept our education program going, The Department of Soil Conservation, State Committee, ASCS, County Extension, IDNR, Mills County Board of Supervisors, Malvern Leader, Glenwood Opinion Tribune, and of course the Soil Conservation Service. Each and every one of you have played an important role in the success of this District.

REMEMBER — Soil Conservation is the art and science of using land according to its capabilities and treating it according to its needs, to keep the soil permanently productive. The Mills County SWCD stands ready to help landusers in meeting this objective by assisting them with any conservation problems..

June 25, 1991 is the 50th Anniversary of the Mills County Soil and Water Conservation District. Please watch your papers for a more detailed Annual Report.

I give my pledge as an American to save and faithfully to defend from waste the natural resources of my country---its soil and minerals, its forests, waters, and wildlife.
