

February 28, 1955

1954

Mr. Hugh Jamison
Des Moines County Soil Conserva-
tion District Commissioners
Mediapolis, Iowa

Dear Hugh

I have just had the opportunity of reviewing your Annual Report for the Des Moines County Soil Conservation District for 1954. I cannot help but feel in your opening statements you have touched on one of the great advancements in conservation work which as you indicate cannot be told with figures; that is the change in attitude of the older farmer and the fresh new ideas of the young farmer toward a better agriculture. I certainly concur with these thoughts and the other points on operation and cooperation that you have listed.

I would like to take this opportunity to congratulate you, not only your report but your year of excellent accomplishments in all branches of conservation activity. I trust that 1955 will see even greater strides toward getting the total job done.

Very sincerely yours

Frank H. Mendell
State Conservationist
