West Marshall Alumni Album

This is an album of the West Marshall Community High School graduating classes from 1963 – 2015. The schools of Clemons, Lamoille, Melbourne, Rhodes, St. Anthony, and State Center combined in 1963 and this album commemorates the graduates since the inception of the West Marshall Community School District. It is hoped that this album provides community members a chance to fondly remember school days and take a walk down memory lane.

The album was created by the 2016 WM After Prom Committee and is the culmination of the work of prior committees. All profits generated from the sale of the album will be used to support safe and fun activities for West Marshall juniors and seniors attending Prom 2016.

The After Prom Committee would like to extend a special thank you to Gutekunst Public Library in State Center for all of the help in putting this book together. Without their help this book would not have been possible. We would also like to thank the owners of Ackley Publishing for their attention to detail and for going above and beyond what was expected to provide West Marshall alumni with a professional product.

West Marshall Community School History

In 1960, the State Center School and Rhodes school considered a merger of the schools and the election held on October 17, 1960 passed with a vote of 515 to 109 and became effective July 1961. In the summer of 1962 a new school district called West Marshall Community School was formed. A new school board was elected with representatives from all areas of the district, which newly included, St. Anthony, Clemons and Melbourne along with State Center and Rhodes. James Hemphill was the first superintendent and the budget was set at \$656,176.50. Enrollment was 1,372 pupils – 734 at State Center, 262 at Melbourne, 254 at Clemons and 122 at Rhodes.

WEST MARSHALL COMMUNITY HIGH SCHOOL

To the adults who created it and to the students who first attended it, the West Marshall School District will have a special meaning. You have been the architects of a great educational undertaking, one that will have a dramatic effect upon the area for generations to come.

This new district meets the educational needs of the students far better than any one of the districts could while operating alone. It has brought a new dimension in education to this part of our country, a dimension that was merely a dream a few years ago.

It is fatal for us to consider that with this re-organization our work is finished. On the contrary, it has just begun. There are many areas that need serious study and attention, as an example; buildings, curriculum, transportation, in fact every aspect of our total program must be evaluated and re-evaluated time and time again.

Education is our salvation. The democracy in which we live is directly dependent on the education of its people. Our education, which is geared to the sixties, seventies and eighties, is of necessity, and education unlike that of the past.

To the Seniors of 1963 - you have launched our West Marshall satellite in a perfect orbit, the groups that follow you shall have a difficult time to keep up your standard. To all of you, I wish success in every undertaking.

James F. Hemphill
Superintendent

With the larger numbers of students, West Marshall began to look at options for classroom space. Architects were hired to design a high school building and the \$925,000 proposition was brought before the voters in March of 1964. It failed to get the required 60% support, falling short with 58%. Again on November 23, 1964 the issue failed when presented to the voters with 51.4%. In June of 1965 school patrons again voted on the high school proposal, rejecting it for the third time with the lowest percentage yet, 42%. Finally, in 1966 the bond issue was approved by 61.3%. Groundbreaking for the new high school was held in April of 1967.

Also in 1967, a \$115,000 bond came before voters to finance a swimming pool and the groundwork for the new high school building. It failed to get 60% approval. On January 9, 1968 voters gave 63.8% approval for the bond issue.

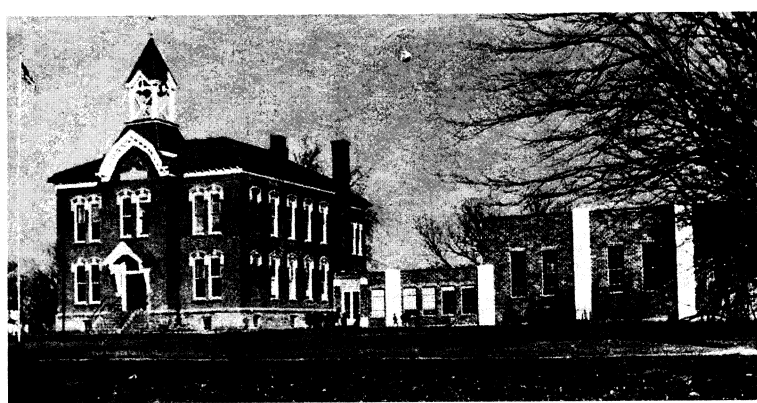

On February 20, 1969 the new West Marshall High School building was dedicated. The 71,000 square foot building had a total cost of \$1,356,445, with a cost per square foot of \$19.10. The Board of Education consisted of Reuben Hilleman, President, W.E. Watson, Secretary, James Jorgensen, Treasurer, members: Leo Dunn, Donald Goodman, Theodore Hickman, Stanley Randall, John Rohrer and Claude Smith.

Over the next several years State Center was to become an even greater center to the school district.

Costs were rising, enrollment was declining and the school board was forced to close outlying Elementary/Junior High buildings. The Rhodes buildings closed in 1969, Clemons in 1979 and the Melbourne building closed in 1983 resulting in all students within the West Marshall School District attending the elementary, junior high and high school buildings in State Center for the first time for the 1984-85 school year.
