The Nurse's Role In Coping With Disruptive Behavior (0.3 CEUs)

Tuesday, October 25, 1983
6:00 - 9:30 p.m.

Beh Auditorium
Mercy Hospital Medical Center
6th and University
Des Moines, Iowa

Sponsored by

Surgical Nursing Department

Coordinated by

Department of Health Education
Mercy Hospital Medical Center
Des Moines, Iowa

Purpose

To increase the nurses knowledge in identifying disruptive behavior patterns and etiology; also incorporating techniques to increase skill in coping with patients and family.

Registration Fee - \$10

Make checks payable to Mercy Hospital Medical Center. Confirmation of your registration may be assumed unless you are notified otherwise.

Registration Information

Mercy personnel complete an in-house registration form.

Participants from outside Mercy Hospital complete the enclosed registration form.

Registration fees must be submitted with the registration form.

Registration fees include presentations, handouts, and breaks. Meals and parking are not included in the fee.

Cancellation/Refund

Registration must be cancelled in writing or by phone at least seven days before the program date or the registration fee will not be returned.

Refund requests and/or grievances must be received in writing by the Director of the Department of Health Education within seven days of program completion. Participants will be notified within two weeks as to action taken regarding the request/grievance.

Parking

Public parking is available to participants in Mercy Hospital's visitor parking lots.

CEU Information

If this program offers continuing education credits, participants who successfully complete the program and apply for credit will receive a CEU certificate.

Partial CEU credit will not be given.

Registration will signify that participants understand the program as advertised and accept responsibility for participation.

The Department of Health Education will not discriminate in the selection or admission of participants on the basis of race, color, religion, sex, national origin, handicap, or age.
