BOOKS FOR BLIND READERS

It is the judgment of those who have given the subject much thought that "circulation of books for the blind is most easily and appropriately made from a state center, because the books are expensive; most blind readers are unable or unwilling to visit a library; and there are few blind people in any one community, except in the large cities."

The Iowa Library Commission has added this feature to the work of the Traveling Library with the desire of reaching every blind person in the state, either those who have already acquired the ability to read type for the blind, or those who are studying it. The Superintendent of the Iowa College for the

Blind has co-operated with the Commission in this work.

Books are loaned to any blind person in the State who desires them, upon the recommendation of a resident taxpayer acquainted with the applicant; or the books are sent to any local library in agreement with the Traveling Library Department, Iowa Library Commission, where they may be easily obtained by the individual, and the books may be returned through the library in the same manner. Books for the blind are entitled to transmission through the U. S. mail free of charge; hence, there is absolutely no cost to the applicant.

The assumption that blind readers desire something different from other people and that they wish to spend most of their time on distinctly religious literature is a mistake. They desire books that will give them a broader view of life, and an attempt to gratify this desire is made.

Our aim is to extend this work until it reaches every blind person in the State who desires the books, but it will not be possible to reach those living in the smaller towns, or in the country, without the earnest co-operation on the part of many people. All who read this are requested to send us the names and addresses of every blind person known to them living in the State of Iowa, even if they are doubtful as to the probability of their making use of the books.

Inasmuch as the New York Point system is the one generally understood in Iowa, and is taught in the Iowa College for the Blind at Vinton, the Library Commission considers it advisable to circulate books in this type.

METHOD OF LENDING.

An application on behalf of the blind read-

er must be signed by a seeing taxpayer and filed with the Commission.

Only one book at a time will be loaned to any one person and for a period of not more than three months. Selection should be made by naming author and title of several books desired; so that if first choice is already loaned another may be substituted.

The books should be wrapped carefully in heavy paper, in returning them, and a printed label, which is sent with each book, should be pasted on the package to insure free transmission through the mail.

Following is a list of books from which selection may be made. Alphabet sheets for acquiring a knowledge of the New York Point system will be sent on request.
