CONTINUATION

F.

This book is put together so it can change and grow as the years go by.

I feel we have come up with a system that can be understood now and in the years ahead.

Each section of the book has been given a letter of the alphabet or a Roman numeral. These are used for page numbering purposes only. You will find at the bottom of each page a letter or Roman numeral thereby showing where it goes in the book.

The book was printed in 1982, which is shown at the each page as 82-

The pages are in numerical order in each section

In the alphabet section of the book it appears as follows:

82-A-1 which is
82 - year printed
A - Introduction
1 - page in that section

In the Roman numeral parts of the book it appears as follows:

82-I-1 which is
82 - year printed
I - William (first child of Christian
and Caroline)
1 - page in that section

In the Roman numeral section there are the eleven children of Christian and Caroline Fricke.

Each section of the children begins with a wedding picture of the couple(except Wilhelmina and Louis, no wedding picture taken, so the one in the book is about ten years or more after they were married).

The wedding picture is numbered with just the 82-I or what ever Roman numeral assigned to the child.

The next page of each child starts with 82-Roman Numeral-0 which has a poem on we felt fitted that particular family.

Some of the families have had pages added since it was typed so you will find pages such as 82-IX-8a which of course follows 82-IX-8 .

In years to come as pages are reprinted or replaced again the year will preceed (ex: 84-IX-9) which would replace 82-IX-9; or we could add a page and make it 84-IX-9a.

We feel this book can grow in this style for many years to come.

MAINTENANCE

You have purchased a book with the idea in mind it should be cherished and become a keepsake or heirloom. With proper care this will be true.

DO's and DON'TS IN CARE

DO put it in a place where temperature and humidity are constant.

DO put it in a place accessible so you can read it and cherish it more as time goes by.

DO treat it as you would an heirloom.

DO use it as a reference book, a history book, a novel.

With proper care this book will be in good shape long after most of us are gone.

The paper used has a life span of 75 - 100 years.

The cover is washable Poly plastic 75 ga.

DON'T store in the attic where the temperature can reach abnormal and extreme highs or lows.

Extreme high temperature causes paper to age and turn brown and brittle prematurely; thereby cutting down on the life span.

DON'T store in the basement where high moisture can be a problem and cause mildew, and premature aging of the book.

DON'T sit it in the sun for long periods of time as it will also cause it to yellow and become brittle.

Really using just plain common sense on the handling of the book keeps it in good shape and it will last a long time.

TO CLOSE BOOK WITH EASE

For ease in closing your book hold by the back bone (where three rings are), put your thumbs on the rivets of the back bone with loose ends of book and sheets hanging down towards floor, shake gently and all the paper will align in the book.

FACTS ABOUT THE BOOK

Paper used in the book is Gilbert Bond 25% rag content
 mylar strip, 3 hole punched
 and four rounded corners,

The rag content gives it a longer life span.
The mylar strip where the three hole punch is
strengthens that side of the sheet so it won't
tear out of the book as easily.

Index dividers made of 125# White index stock,
tabs printed on both sides, mylar reinforced binding
edge, four square corners.

The index tabs have square corners to better protect
the sheets in between as they have rounded corners.

Covers are Black 75 pt. poly plastice with Metallic
Gold silk screen imprints, 2 3/4 inch rings, also
in each book are two full page sheet lifters.
