Mr. Wendell Christensen
Chairman, Kossuth County
Soil Conservation District
1306 N. Main Street
Algona, IA 50511

Dear Mr. Christensen:

I have just reviewed your 1980 Annual Report. Your District certainly experienced a year of change. A new District Conservationist, a new Soil Conservation Technician, and two new Soil Conservation District Commissioners. I'm sure that they were all anxious to get on a team that has done such fine conservation work.

You have continued to promote conservation tillage. This certainly has to be a major practice for a county the size of Kossuth. Imagine just how many acres of your County could be protected from erosion if only everyone was using Conservation Tillage.

Please express my "welcome aboard" to the new members of your conservation team, and a hearty "well done" to those of you who have been selling soil conservation in Kossuth County for a number of years.

Sincerely,

William J. Bruns
State Conservationist
