## Fascinating facts from the SCS

Dear diary,

Today my little brother fell in the gulley out by the beans and Daddy had to pull him out with a rope. Later a landslide buried my playhouse and the milk cow got lost in the dust.

Then Uncle Arno was plowing on the hill behind the house and the tractor rolled over on him. Right before lunch I fell out by the barn and got cow-do-do on my clothes and Mamma had to rinse me off with the hose.

After that it started raining real hard. Daddy says if he had a telephone in our boat, he'd call the Soil Conservation Service. He's sure they could help.

If you have erosion problems on your land or if you notice that the cropping system you are using now is not holding your soil in place,

help is available from your Soil Conservation Service office in Wapello. Just give us a call at 523-6411.
