

Fanning A lternatives R esource M aterials LIBRARY

The Farming Alternatives Resource Materials Library (F.A.R.M.) was created by the group *Farmers Forster* to provide information on non-conventional farming practices. *Farmers Forster* hopes to increase the diversity of agriculture in Iowa and promote sustainable agriculture.

Funding for the F.A.R.M. Library came from a grant from Shared Visions. Shared Visions is a collaborative effort of Practical Farmers of Iowa, Inc., Extension, and the Leopold Center for Sustainable Agriculture.

Nearest funding is provided by the Louisa County Soil and Water Conservation District's contributions.

availability now from the
F.A.R.M. Library

Fanning A lternatives R esource M aterials LIBRARY

Anyone in Iowa may check out their
interest using the Shared Visions Loan System.

Tell your librarian the title and author of the
publication and that the material is available at
the local library in Wapella, Iowa.

The librarian will pay for the postage, but a
small donation to your library will help defray
their costs.

Interested in Organic Farming?

The Shared Visions group Prairie Talk has organized an
extensive collection of materials, growing and selling organic
products from the farm. The materials include, in the future,
members have access. For a current book list, visit the
website at <http://www.leeptons.com/prairietalk>
